

Emergency First Aid Course Overview

This course will provide participants with the general skills required to treat a person in the event of an emergency. It covers CPR & AED (Defibrillation) and all the common medical emergencies and will give participants the skills, knowledge and confidence to treat a patient.

Participants will complete a short written and practical assessment at the end of the course.

Successful participants will receive an Advanta Safety Emergency First Aid Certificate. This course includes Heartsaver CPR and AED training and participants will receive a certificate for this element of the course from the Irish Heart Foundation. Certificates should be updated every two years.

Duration: 1 Day

Course covers:

- Approach to an accident
- Scene Safety
- Heartsaver CPR – Adult, Child and Infant
- Heartsaver AED
- Wounds, Bleeding & Trauma
- Fractures, Sprains & Strains
- Spinal Injuries
- Burns & Scalds
- Medical Emergencies: Asthma, Diabetes, Epilepsy, Heart Attack, Stroke, Choking
- Course Assessment
