

# Paediatric First Aid for Parents, Grandparents & Carers - Course Overview

This course is designed to give parents, grandparents, carers etc. the knowledge, skills and confidence to deal with all the common medical emergencies that can be encountered whilst caring for children & infants.

**Duration: 1 Day** (9.30 a.m. to 5.00 p.m.)

(This course can also be delivered in two half days or evenings by arrangement)

## Each course covers:

- Scene Safety
- CPR for Children and Infants
- How to react in an emergency situation
- Choking
- Bleeding & Wounds
- Dealing with an unconscious Child/Infant
- Febrile Seizures
- Epilepsy, Diabetes, Asthma, Meningitis,
- Poisoning
- Fractures and soft tissue injuries
- Burns & Scalds

On successful completion of the course participants will receive an Advanta Safety Paediatric First Aid for Parents & Carers Certificate. It is recommended that this is updated every two years.

(Please note that lunch is not included in the cost of the training programme).
